140 lt./h

MAGAZZU' M 11-COUPÉ'

"A sporty RIB with a comfortable sign"

M-11 is significant big in the large RIB sector. They are sought after, luxury crafts based on stylish elegance and top-quality finishing touches. The Coupe versions enhances these standard characterizations with top quality finishing touches in the cabin. The vast internal living space is well disguised from the outside thanks to careful studies carried out at the design stage in order to limit the size of the superstructure while still maintaining the appearance of a RIB. This provides the added advantage for large sunbathing areas at bow. Externally, there is also a hob and fridge under the steering bench and further sunbathing areas at stern. Top quality materials have been used in its construction: a mix of Kevlar, unidirectional carbon fiber and epoxy-vinyl resin for the hull and solid teak on the deck tread, while the bulkhead cabinetnetwork and furniture in the Coupe interiors are done in maple wood.
